Confidence is the FOUNDATION of ALL Success, and the degree of success any business enterprise or individual attains is an exact reflex of the amount of Confidence he has in his proposition.

The whole STRUCTURE of human life is based upon Confidence.

It begins with the babe in the cradle having canfidence in the loving Mother arms that enfold it, and it ends with the Confidence we all have in the Supreme Being weighing OUR endeavors here below when we cross the threshold of the Better Life.

Confidence builds banks, makes governments stable and makes possible Progress.

It is the foundation of the home and the reason for organized Society.

No bank, government, court, home or FAMILY can be successful in their individual lines of endeavor where there is LACK OF CONFIDENCE.

It is the great MORAL IMPULSE linking the Finite with the INFINITE, and makes possible the bearing of heavy burdens here for the assured RE-WARDS hereafter.

Applied to mere secular things Confidence plays its equally important part, whether these be the selling of pianos, players or shoestrings.

Professor Ogle held the Austin Senators to one lone single yesterday and Waco won the game 2 to 0. Bottorff. who hurled for the Senators, was entitled to a one-hit game, but the official scorer chalked up two hits aganist him. One of them should have gone for an error. Waco won the game in Allen, the sixth inning after two men were Miller, p. out, on an error, stolen base, walk, double steal and another error. A wild heave to first by Brainard from shortstop gave the game away.

The features of the game were the fielding of Bill Rennard in right and Wohlleben at first. Rennard pulled down a liner from McIver's bat in the sixth inning that would have scored two runs if it had fallen safe. It was a long drive and after making a long run Rennard leaped in the air and got his mit on the ball. The fans gave Rennard a prolonged cheer when he came to the bench. I wish to say for the benefit of the public that I am not connected with any abstract company, having heretofore sold all my abstract property to the National Exchange Insurance and Trust Company, and the same is now in charge of Mr. R. S. Vaughan, whom I cheerfully recommend as a man and as an abstracter, and the new ownership has my best wishes, and I bespeak for it the liberal patronage of the public.
